

HEPATITIS C?

Learn more. Be Sure.

Assess Your Risk.

Hepatitis C is a virus that causes liver disease. More than 100,000 people in Massachusetts have hepatitis C. Most of them don't know it.

You're at risk if you have:

- + Received a blood transfusion or organ transplant before 1992;
- + Injected drugs, even once; or
- + Had sex with multiple partners without using condoms.

To learn more:

- + Ask a health care provider;
- + Contact your local health department;
- + Call 888-443-HepC (888-443-4372), or visit:
 - www.masshepc.org
 - www.cdc.gov/hepatitis
